

SUSE LINUX DESKTOP

FOR PROFESSIONAL ENTERPRISE USE – DESKTOP ALTERNATIVE FOR PROGRESSIVE IT STAFFS

SUSE LINUX DESKTOP – SIMPLE, EFFICIENT AND EFFECTIVE

The complete, user-friendly solution for desktop operating systems, office, and email. Support for Microsoft Office and IBM Lotus Notes.

SuSE Linux Desktop provides a flexible platform that accommodates the needs of the typical office worker – ranging from standard environments up to Thin Client functionality for use with legacy servers.

COMPREHENSIVE APPLICATIONS AND FUNCTIONALITY

SuSE Linux always keeps you connected. From the office, home, or on the move, you are connected to the world via the Internet and Intranet access.

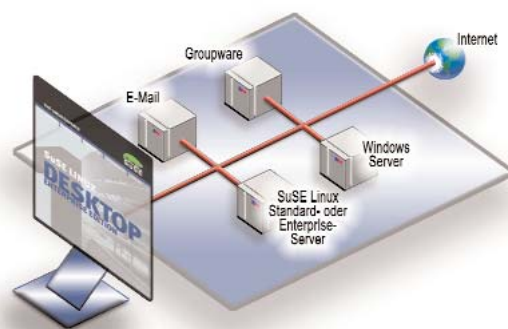

Email can be created and edited in kmail, Microsoft Outlook, Evolution, IBM Lotus Notes, or other communications clients and much much more ...

SUSE LINUX DESKTOP – SAFE AND SECURE

Security with Linux – tried-and-tested: easy to manage security functions, such as KDE desktop security system (Kiosk), provide guaranteed availability of all data, on mobile laptops and on the networks.

THE SUSE LINUX MAINTENANCE PROGRAM – SUPPORT ANY TIME, ANY PLACE

A comprehensive portfolio of enhanced SuSE support and maintenance options ensures that companies receive expert support from SuSE Linux technicians. All this at fixed prices, with guaranteed response times and at all hours (optional).
